AMES Launches New Express Product Catalog

November, 2010 - Mayville, WI.

Today's health care providers face formidable medical record management challenges. They must support a hybrid data environment (paper and electronic), maintain workflows among more than 20 specialized departments, plus comply with ever-changing privacy and security regulations.

AMES, with 90 years of experience in health record system management, can help you surmount these challenges and introduce best-practice solutions that achieve your goals. We organize, access, and manage your health care organization's critical information through integrated record management systems and services. These include medical file storage and scanning, filing systems and folders, EMR transition, moving and outsourcing, and protection and compliance.

By combining customized record management products and services with our deep health care expertise, we can save time and space, reduce costs, accelerate information retrieval, and minimize exposure to risk.

For your convenience, you can also shop on-line at www.amesfiling.com.

If you can't find what you're looking for in our new catalog, please don't hesitate to call us at 1-800-343-2040 and let our friendly staff help you analyze, plan, and implement a medical record management solution that meets your needs.
